

# NETAJI NAGAR DAY COLLEGE

## ACTION TAKEN REPORT

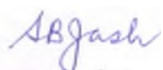

2023-2024

The feedback from the students, teachers and alumni are collected by circulating the Feedback Forms. The data are then compiled and analyzed. Feedback analysis report is available in the college website.

### Feedback from Students:

From the analysis of the students' feedback, it is revealed that they are satisfied with the curriculum framed.

	Feedback	Action Taken
1	Increase the number of books in library	The library has ordered some new books related to CCF syllabus.
2	The teachers at the college are highly knowledgeable and supportive, always willing to help students understand the subject matter in depth. The library staff is also very helpful, making it easy to access a wide range of academic resources. Additionally, the department staff members are cooperative and ensure the smooth functioning of administrative processes. However, there are some areas where the college could improve. Certain facilities or aspects of the office staff experience can be disappointing, some staff are behave rude and addressing these issues would enhance the overall experience.	Each and every member of the office staff treats the pupils with kindness and encouragement. They are trying to make their offerings better so that pupils won't have to deal with any problems anytime soon.
3	College needs more class rooms.	The college faces space shortage. Second instalment of RUSA grant is awaited for development of the second campus.

### Feedback from Teachers:

Sl.No.	Feedback	Action Taken
1	Frequent changes in syllabus are difficult to adjust. Instead up-gradation is more essential. Frequent syllabus changes create more confusion than progress.	The College follows the syllabus set forth by the affiliated university. The college has no role in this fact.

2	Syllabus should be more convenient for 3 years degree course students. It's difficult to finish the entire curriculum in the allotted time. Too much syllabus but time is limited to cover it.	For all courses, the College adheres to the syllabus set forth by the affiliated university. Thus, the deadline for finishing the semester is outside of the college's jurisdiction.
3	Need more class rooms. Need more money to develop the infrastructure of a department.	The college faces space shortage. Second instalment of RUSA grant is awaited for development of the second campus.
4	Reference books/copies and study materials need to be made available online so that students can access them freely.	The Central Library's online resource is well-equipped. Anyone from this college can avail the books, study materials, university question papers through online mode.
5	Every classroom should have audio-visual aids available to enhance the teaching-learning process and make it more engaging.	There are numerous ICT-based classrooms at the college. These classrooms are available to all departments.

## Feedback from Alumni:

Sl. No	Feedback	Action Taken
1	Syllabus should be more industry friendly or career oriented. Industry oriented syllabus and practical training are required.  The former 2+1 syllabus was much better for in-depth study and assimilation of the topics by the teachers and students too. This syllabus may be pragmatic, but not at all satisfactory for the teachers.	The institution is a Govt. aided college under the University of Calcutta and adheres to the stipulated syllabus. However, two of our faculty members serve as BOS members for two distinct disciplines, and they have been told by the authority to bring up the topic at their upcoming BOS meetings. The Principal is also a syndicate member of the University of Calcutta. She will also raise the issue in the next syndicate meeting.
2	A large area should be designated for lab work for different laboratory oriented subjects, and need more class rooms.	There are already sufficient-sized laboratories for practical base subjects. Regular upgradation are made to the labs.  The college faces space shortage. Second instalment of RUSA grant is awaited for development of the second campus.
3	Hopefully the alumni association will play positive role for future development and provide sustainable support to the college.	Authority always welcomes such types of support from the alumni, the extended family members of the college.
4	Co-curricular activities were supported by the college, which also uplifted the spirit among the students.	The college encourages the students by organizing co-curricular activities like inter college debate, dance, extempore, sports etc. competitions time to times throughout the academic calendar. Increased alumni involvement is necessary.
